## **ANIMAL-ASSISTED THERAPY IN LIFE SKILLS by Bill Berkheimer, Shawn Peters, Bill Strohm, JB Warrington, and Shawn Wivell:**

We all attend a group called Life Skills. On Tuesdays two very dear friends, named Carol and Maggie, visit. Maggie is a pretty golden retriever (age 4) who is very nice to us. Carol is Maggie's owner, handler, and very dear friend.

Maggie and Carol are registered through KPETS, a local animal-assisted therapy group. When Maggie is here we play ball, brush her, play games, learn commands & just talk. We all love Carol and Maggie. We look forward to seeing them; it is the highlight of our week.
