Annie the Therapy Dog Comes to Lincolnway

Throughout the second half of the year, Lincolnway will have a special guest on occasion. This guest has four legs and is a bit hairier than most humans....the guest is Annie, a registered Therapy Dog with KPETS. Annie is a Golden Retriever who will be eight years old in June. She has been participating in the Tales For Tails Program at the Glatfelter Memorial Library the past six years. Annie will be crated in the reading room, but also may travel to classrooms with her human handler, Mrs. Jennifer Oswald. During her time at Lincolnway, students can read to her and earn time with her for good behavior/attendance, etc.
